FUTURE HOUSE

London’s Techno-Optimist Members Society

ABOUT JOE

- Founder @ Future House
- Head of AI R&D @ Amplitude
- Serial Tech & Policy Community Founder
- Quit School at 16 to Work as Software Engineer

OPPORTUNITY

The UK Could Become The R&D Capital Of The World

We have the raw ingredients

- Top tier engineering & research talent
- Generous R&D tax breaks
- Surprisingly malleable legislation & regulation
- Globally-respected institutions

OPPORTUNITY

Those Ingredients Are Going To Waste

The RI, RSA, Livery Companies, and Chambers of Commerce have failed to inspire, educate, support, and represent modern founders.
$100b later, co-working spaces have also failed to fill the gap.

We need a modern Techno-Optimist Institution - not more hackerhouses
