OPPORTUNITY

The UK Is Close To Being The R&D Capital Of The World

We have the raw ingredients

- Top tier engineering & research talent
- Generous R&D tax breaks
- Surprisingly malleable legislation & regulation
- Globally-respected institutions

OPPORTUNITY

Those Ingredients Are Going To Waste

The RI, RSA, Livery Companies, and Chambers of Commerce have failed to inspire, educate, support, and represent modern founders.
\$100b later, co-working spaces have also failed to fill the gap.

We need a modern Techno-Optimist Institution - not more hackerhouses

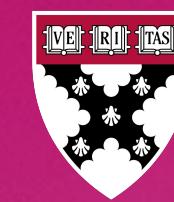

PROGRESS

To Solve This, We Started A Spreadsheet

The screenshot shows a Google Sheets document with the title "AI London.org". The spreadsheet includes a header row with links to "Submit Event", "AI London", "Join the WhatsApp Community", "New York Events", and "San Francisco Events". Below this is a table with columns for "Event", "Organiser", "Date & Time", and "Url". The table lists 21 events, each with a link to its event page on Meetup or Eventbrite. The events cover various topics like AI meetups, AI in design, AI in marketing, and AI in engineering.

THE NEXT STEP

Chance-Encounters Only Happen Intentionally

We're now looking for donors to scale

- Physical location providing a reality-distortion-field for ambition
- Strategic policy campaigning on issues that block progress
- Talent activation in strategic problem spaces (cause areas)

Book a visit to FutureHouse to hear what we have planned, and how you can help.
