## OPPORTUNITY

# The UK Is Close To Being The R&D Capital Of The World

## We have the raw ingredients

- Top tier engineering & research talent
- Generous R&D tax breaks
- Surprisingly malleable legislation & regulation
- Globally-respected institutions

**OPPORTUNITY**

## **Those Ingredients Are Going To Waste**

The RI, RSA, Livery Companies, and Chambers of Commerce have failed to inspire, educate, support, and represent modern founders.  
\$100b later, co-working spaces have also failed to fill the gap.

**We need a modern Techno-Optimist Institution - not more hackerhouses**

## PROGRESS

# To Solve This, We Started A Spreadsheet

The screenshot shows a Google Sheets document with the title "AI London.org". The spreadsheet includes a header row with links to "Submit Event", "AI London", "Join the WhatsApp Community", "New York Events", and "San Francisco Events". Below this is a table with columns for "Event", "Organiser", "Date & Time", and "Url". The table lists 21 events, each with a link to its event page on Meetup or Eventbrite. The events cover various topics like AI meetups, AI in design, AI in marketing, and AI in engineering.

| Event   | Organiser                              | Date & Time                   | Url   |
|---|--|-------------------------------|---|
| LLM meetup London   | Fedor                                  | 13th June                     | <a href="https://www.meetup.com/london-large-language-models-meetup-group/events/29">https://www.meetup.com/london-large-language-models-meetup-group/events/29</a>   |

**THE NEXT STEP**

## **Chance Encounters Only Happen Intentionally**

We're now looking for donors to scale

- Physical location providing a reality-distortion-field for ambition
- Strategic policy campaigning on issues that block progress
- Talent activation in strategic problem spaces (cause areas)

**Book a visit to FutureHouse to hear what we have planned, and how you can help.**
